

OBIC 5000 – OBIC

 obicproducts.com/obic-5000

OBIC 5000 is a 100% solids lining that reinstates structural integrity, provides infiltration control, corrosion resistance and asset life extension of concrete, steel, masonry and other substrates.

Applications

Manholes, Lift Stations, Wet Wells, Grit Chambers, Culverts, Clarifiers, Junction Boxes, Secondary Containment, Tanks, Tunnels, Large Diameter Pipelines and more...

- 1:1 Mix Ratio
- Quick Return to Service
- Easy Installation
- Can Be Applied Up to 250 Mils on a Single Deployment
- No Special Equipment Required

can be applied with a common dual proportioned system i.e. HXP-2/HVR or PHX-40, P2 or Fusion AP Spray Gun with reactor temp of 160°F, 2100 PSI

Property	Value
Tensile strength	7000 psi
Elongation	5.5%
Hardness	80D
Flex Modulus	470,000 psi
Flex Stress	12,000 psi

**Per current test results, product currently undergoing independent third party testing. Subject to change.*
