Push Camera System

Simple, robust and reliable.

Minicam has constantly refined the design, materials, components and construction, to make for our best ever coiler frame.

Customers in over 35 countries worldwide have come to rely on the SOLO PRO+ Push Camera System for its robustness, reliability, and of course the enviable after-care and service backup to keep you working.

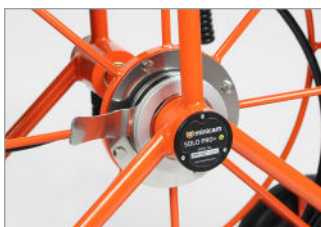

Functionality at Your Fingertips

Feature-rich, the SOLO PRO+ Control Unit has an integral joystick for camera control and an ergonomic soft-touch keypad. User-friendly multi-function hot keys control an intuitive on-screen display, to enable quick and accurate navigation of the numerous features on this brain of the SOLO PRO+ system.

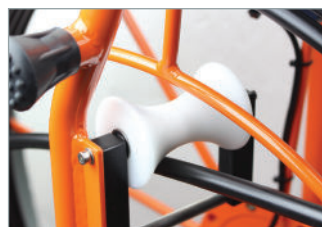

Embedded software makes creating sharable surveys and reports easy. Once surveys are completed, users can instantly share PDF reports, images and videos via email, or upload them to the web for secure, immediate, team-wide access online

Features

Friction Brake

Rod Roller

Easy-fit Control Unit

Integrated Meterage Counter

Cameras

Push camera systems are available with an axial camera, or choice of two pan rotate laser cameras or as a duo system with two cameras. Built for longevity, with excellent optical qualities, the cameras are rugged, with robust connectors.

Top: Pan Rotate Laser Camera CAM026L. Centre: Axial Camera CAM025
Bottom: Pan Rotate Laser Camera CAM050.
Push camera system also available with Pan Rotate Camera CAM026
